

Tribute to the Pipeline Builders

Special Edition Marlin 1895G Lever Action 45-70

Fighting some of the harshest conditions, Pipeline builders have struggled to build the pipelines that transport natural gas and crude oil to market. With temperatures reaching well above 100 degrees in the summer, and 30 below in the winter, heavy equipment operators, welders, machinests and pipeline crews struggle to lay the infrastructure that will make America energy independent. This gun is to honor those hard working people who toil 365 days a year to build Americas pipelines.

Only 100 numbered guns plus a proof Tribute to the Pipeline Builders will be produced. They are offered on a first come - first served basis. You will have the opportunity to select the number of your choice if available. This is a unique opportunity to own what will surely become a cherished piece of your family history that you, (and your children or grandchildren) can display with pride. These are memorable gifts that demonstrate to someone that they are a remarkable and important part or your life or business.

Join us at Centennial Classic Arms as we pay tribute to the hard working Pipeline Builders . Our Special Edition Marlin 1895G in caliber 45-70 serves as a proud symbol of your history and heritage. Each fully functioning firearm is numbered and is intricately laser engraved on the forearms and buttstock. The gun will be shipped to the firearms dealer of you choice for transfer.
